Classification Definitions in Microfiche

The Patent and Trademark Office announces the availability of *Classification Definitions* in microfiche form, offered for sale on a subscription basis through the Superintendent of Documents, U.S. Government Printing Office.

A subscription consists of an initial set of microfiche containing all of the definitions and subsequent quarterly issues of microfiche providing any newly published definitions or any changes in existing definitions. The term of a subscription will depend upon the number of quarterly update microfiche issued, but is expected to extend for two years.

Each of the definitions is published in its entirety on one or two microfiche, including all addenda. The microfiche are sheets of diazo type film of 105mm by 148mm (4" x 6"), which contain up to 98 pages of information at a reduction ratio of 24:1. The present full set consists of 323 definitions on 359 microfiche, containing definitions for over 100,000 subclasses.

For the convenience of the user, changes resulting from addenda will be hand-entered into the text where feasible; all other changes will be indicated by reference in the text to addendum page number. Where a class definition is modified in any way through an addendum or republication, the entire microfiche(s) for that definition will be replaced in the next issuing update.

Paper copies of individual class definitions will continue to be available from U.S. Patent and Trademark Office, Office of Documentation Planning, Support and Control, Special Processing Section, Room 7D30, CP2, Washington, D.C. 20231 [telephone (703) 557-9361]. Prices vary according to the size of each document.

The *Classification Definitions* in microfiche may be purchased only from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.
